

## **WORK BREAKDOWN STRUCTURE(WBS)**

### **1. Project Initiation**

- Define objectives
- Form groups & roles
- Requirements gathering

### **2. Standards Repository**

- Collect PMBOK, PRINCE2, ISO docs
- Convert to digital formats (PDF/EPUB/HTML)
- Implement search & navigation

### **3. Comparison Engine**

- Define comparison topics (Risk, Stakeholders, etc.)
- Build side-by-side comparison view
- Add deep linking to standards

### **4. Insights Dashboard**

- Identify similarities
- Identify differences
- Highlight unique points
- Generate tailored recommendations

### **5. Prototype Development**

- UI/UX design
- Mobile/web prototype build
- Integrate repository, comparison, dashboard

### **6. Testing & Validation**

- Functionality testing
- Usability testing
- Fix issues
